sales@getpacked.com.au

- Light weight, efficient void fill
- Eco-friendly
- Made from 50% recycled material
- Recyclable

Want to protect your items — and help protect the environment?

Our eco-friendly air pillows reduces plastic waste by helping to increase demand for recycled plastic and encourage investment in recycling technology innovation. That means more plastic can be efficiently recycled into new products — and stay out of landfills and oceans.

Features and Benefits

Made from 50% recycled materials

- The recycled content used to make the BUBBLEWRAP brand Fill Air Recycled Content Air Pillows are sourced from both 30% post-consumer and 20% post-industrial material.
- Post-consumer content is Intertek Verified (No. GLF-05-APAC-21-1364).
- Each air pillow is manufactured from recyclable high-density polyethylene (HDPE)

Store Drop-off Recyclable

- The air pillows are store drop-off recyclable.

Lightweight and Efficient

- Thin film. Reduces material use by up to 50%.
- Saves on valuable warehouse space by shipping and storing flat. Deflates to 0.7% of its original volume.

Performance and Reliability

- Proven to prevent items from shifting, bruising, or breaking during transit.
- Inflates on-demand with the – fast, efficient, and reliable – BUBBLEWRAP brand Rocket system.
- Customized printing available

Sustainable

- Lowest carbon-footprint offer for void fill on the market
- Reduces use of virgin material.
- Enables a circular economy, reduces carbon footprint and serves as a resource efficient void-fill packaging solution.
