## Proposition 65 Compliance Statement

BENISON & CO., LTD. is committed to providing safe and compliant products that meet all applicable regulatory requirements, including California's Safe Drinking Water and Toxic Enforcement Act of 1986, commonly known as Proposition 65 (Prop 65).

### 1. Understanding Proposition 65

Proposition 65 requires businesses to provide warnings to California residents about significant exposures to chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm. The list of regulated chemicals is maintained and updated by the California Office of Environmental Health Hazard Assessment (OEHHA).

### 2. Compliance Approach

BENISON & CO., LTD. takes the following measures to ensure compliance with Proposition 65:

- Material and Chemical Assessments: We work closely with suppliers to monitor the composition of our products and verify the presence of any listed chemicals.
- Third-Party Testing: When applicable, we conduct independent laboratory testing to ensure compliance with Proposition 65 standards.
- Product Labeling: If our products contain substances regulated under Proposition 65 at levels requiring notification, we provide appropriate warning labels in accordance with California law.

### 3. Consumer Safety Commitment

Our company remains dedicated to transparency, safety, and regulatory compliance. We continue to review and update our policies based on changes to Proposition 65 requirements and strive to minimize exposure to hazardous substances in our products.
