Reinforced Water Activated Tape

Technical Data Sheet

DESCRIPTION

Water activated tape is also known as gummed tape or gummed paper tape. It is a green and environmentally friendly product. The base material and adhesive will not cause pollution to the environment and can be recycled with the packaging. It is mainly used to replace pressure-sensitive tapes for carton sealing, etc.

PRODUCT APPLICATION

Used to securely close boxes. The tape bonds to corrugated boxes to keep the contents inside safe during transit and shows evidence of any tampering or opening.

The above performance and the results obtained refer to the average value of laboratory tests performed on our product samples. We strongly urge users to conduct independent testing to verify the suitability of the product for any intended use. We assume no responsibility for any damage or injury sustained as a result of the use of this product.

Reinforced paper gummed tape (Natural)

Physical Properties	Standard	Metric	Test Method		
Backing	Top Ply: 35 g/m ² Kraft paper				
	Bottom Ply: 35 g/m ² Kraft paper				
Thread	72mm (1-1-1-1-1-1) Fiberglass				
Water Activated Adhesive	Starch adhesive				
Glue Weight	28g±2g/m ²				
Total Weight	121g±2g/m ²				
Total Thickness	5.90 mils	0.15mm	ASTM D-3652	GB/T7125	
Tensile Strength	MD	53 lbs/in	239 N/25mm	ASTM D-3759	GB/T30776
	TD	29 lbs/in	133 N/25mm	ASTM D-3759	GB/T30776
